Dear Dr Hegyi,

***The first WHO interregional training workshop on appropriate integration of traditional and
complementary medicine (T&CM) into health systems and health care services
Macao SAR, China, 7-9 June 2018***

We would like to thank you for attending the above-mentioned training workshop. We also wish to express our sincere appreciation for your valuable contribution including sharing of quality experiences, excellent intensive group work and collaboration, which enhanced the value of the training workshop.

It would not have been possible to hold the interregional training workshop without the generous financial and logistic support of the Government of Macao Special Administrative Region of the People's Republic of China. We therefore would like to express our heartfelt gratitude for this invaluable contribution and the work of the local secretariat which led to a successful and memorable training workshop.

Your special contribution made at the training workshop, among others, by completing the evaluation form is greatly appreciated. The information articulated in the evaluation form, will enable WHO to make some improvements in the future training activities.

We look forward to continued collaboration in our current and future work in the field of traditional medicine.

Yours sincerely,

Dr Zhang Qi
Coordinator
Traditional, Complementary and Integrative
Medicine
Service Delivery and Safety Department
